

1906 - Newell

This 1906 map is in the same style as the 19th century land ownership maps, but it is not complete. Some placements are neither accurate nor spelled correctly.

It shows most roads, and many homes, but not all of them. This map is an excerpt from a small wall map of Cheshire County made by Chauncey Newell of Alstead, New Hampshire. However, a number of houses which were in Chesterfield are not shown, notably in the densely populated villages.
